

List of Scientific Journal Publications relating to IMOA-MoCon research into molybdate effects

Subject	Name of Paper	Reference	Available from
Human Health: Prenatal developmental toxicity	“Developmental toxicity study of sodium molybdate dihydrate administered in the diet to Sprague Dawley rats”.	Journal of Reproductive Toxicology, Vol 49, November 2014, 202-208	Free-of-charge download from: http://www.sciencedirect.com/science/article/pii/S089062381400238X
Human Health: Repeated dose toxicity	“90-Day subchronic toxicity study of sodium molybdate dihydrate in rats.”	Regulatory Toxicology and Pharmacology 2013	Free-of-charge download from: http://www.sciencedirect.com/science/article/pii/S0273230013001487
Human Health: Bioaccessibility	“Bioaccessibility of micron-sized powder particles of molybdenum metal, iron metal, molybdenum oxides and ferromolybdenum – Importance of surface oxides”	Regulatory Toxicology and Pharmacology. 72(2015)447-457	http://www.sciencedirect.com/science/article/pii/S0273230015001427
Freshwater: Organisms effects generation	“The chronic toxicity of molybdate to freshwater organisms. I. Generating reliable effects data” by K.A.C.de Schamphelaere	Science of the Total Environment 408 (2010) 5362-5371	http://www.sciencedirect.com/science/article/pii/S0048969710007357
Marine: Organisms effects generation	“The chronic toxicity of molybdate to marine organisms. I. Generating reliable effects data”, by D.G. Heijerick.	Science of the Total Environment 430 (2012) 260-269	http://www.sciencedirect.com/science/article/pii/S0048969712004068
PNEC derivation : Freshwater and marine	‘The toxicity of molybdate to freshwater and marine organisms. II. Effects assessment of molybdate in the aquatic	Science of the Total Environment 435–436 (2012) 179–187	http://www.sciencedirect.com/science/article/pii/S0048969712007905

List of Scientific Journal Publications relating to IMOA-MoCon research into molybdate effects

	environment under REACH,’ by D.G. Heijerick		
Subject	Name of Paper	Reference	Available from
BCF-BAF: Freshwater fish study	“The bioconcentration and bioaccumulation factors for molybdenum in the aquatic environment from natural environmental concentrations up to the toxicity boundary”, by L. Regoli.	Science of the Total Environment 435–436 (2012) 96–106	http://www.sciencedirect.com/science/article/pii/S0048969712008352
Soils: Toxicity data	“Influence of soils properties on molybdenum uptake elimination kinetics in the earthworm Eisenia Andrei”, by M. Diez-Ortiz et al, 2010.	Chemosphere. 80(2010) 1036-1043	http://www.sciencedirect.com/science/article/pii/S0045653510006053
Soils: Toxicity data	“Predicting molybdenum toxicity to higher plants: influence of soil properties” by S. McGrath et al, 2010.	Environmental Pollution. 158: 3095-3102	http://www.sciencedirect.com/science/article/pii/S0269749110002629
Soils: Toxicity data	“Predicting molybdenum toxicity to higher plants: estimation of toxicity threshold values” by S. McGrath et al, 2010.	Environmental Pollution. 158: 3085-3094	http://www.sciencedirect.com/science/article/pii/S0269749110002654
Soils: Toxicity data	“The bioaccumulation of molybdenum in the earthworm Eisenia andrei: influence of soil properties and ageing” by C. Van Gestel et al. 2010	Chemosphere. 82(2011) 1614-1619	http://www.sciencedirect.com/science/article/pii/S0045653510013548

List of Scientific Journal Publications relating to IMOA-MoCon research into molybdate effects

Subject	Name of Paper	Reference	Available from
Soils: Toxicity data	“Effect of long-term equilibration on the toxicity of molybdenum to soil organisms” by C. Van Gestel et al. 2011	Environmental Pollution 162 (2012) 1e7	http://www.sciencedirect.com/science/article/pii/S0269749111005835
Soils: Toxicity data	“Toxicity of the molybdate anion in soil is partially explained by effects of the accompanying cation or by soil pH” by J. Buerkers et al. 2009	Environmental toxicology and chemistry. Vol. 29, No. 6, pp 1274-1278 2010	http://onlinelibrary.wiley.com/doi/10.1002/etc.162/abstract
Soils: Toxicity data	“Aging effects on molybdate lability in soils” by J. Kirby et al. 2012	Chemosphere. 89(2012) 876-883	http://www.sciencedirect.com/science/article/pii/S0045653512006236
Soils: Toxicity data & PNEC derivation	“Derivation of ecological standards for risk assessment of molybdate on soil”. By K.Oorts et al. 2015	<i>Environ. Chem.</i> http://dx.doi.org/10.1071/EN15086	Free-of-charge download from: http://www.publish.csiro.au/?paper=EN15086

Notes: In order not to breach copyright rules MoCon-IMOA cannot supply you with copies of these publications but you can order them directly on-line from the journal, using the links and references above. Each one costs approximately US\$40 (except for where ‘free-of-charge download’ is indicated).
